30,000 Years living on Country

60 Years of contact

Kanyirninpa Jukurrpa (KJ) is a Martu organisation that supports Martu to:

- look after culture and country;
- build a viable economy in Martu communities; and
- build pathways for young Martu to a healthy future.

Developmental Evaluation

- an ongoing process of innovation in which both the path and the destination are evolving.

It differs from making improvements along the way to a clearly defined goal (Formative evaluation).

Where traditional approaches to evaluation try to predict the outcomes – and measure progress towards them developmental evaluation aims to support innovation in a context of uncertainty.

Adapted from Gamble JAA (2008) A Developmental Evaluation Primer
McConnell Family Foundation.

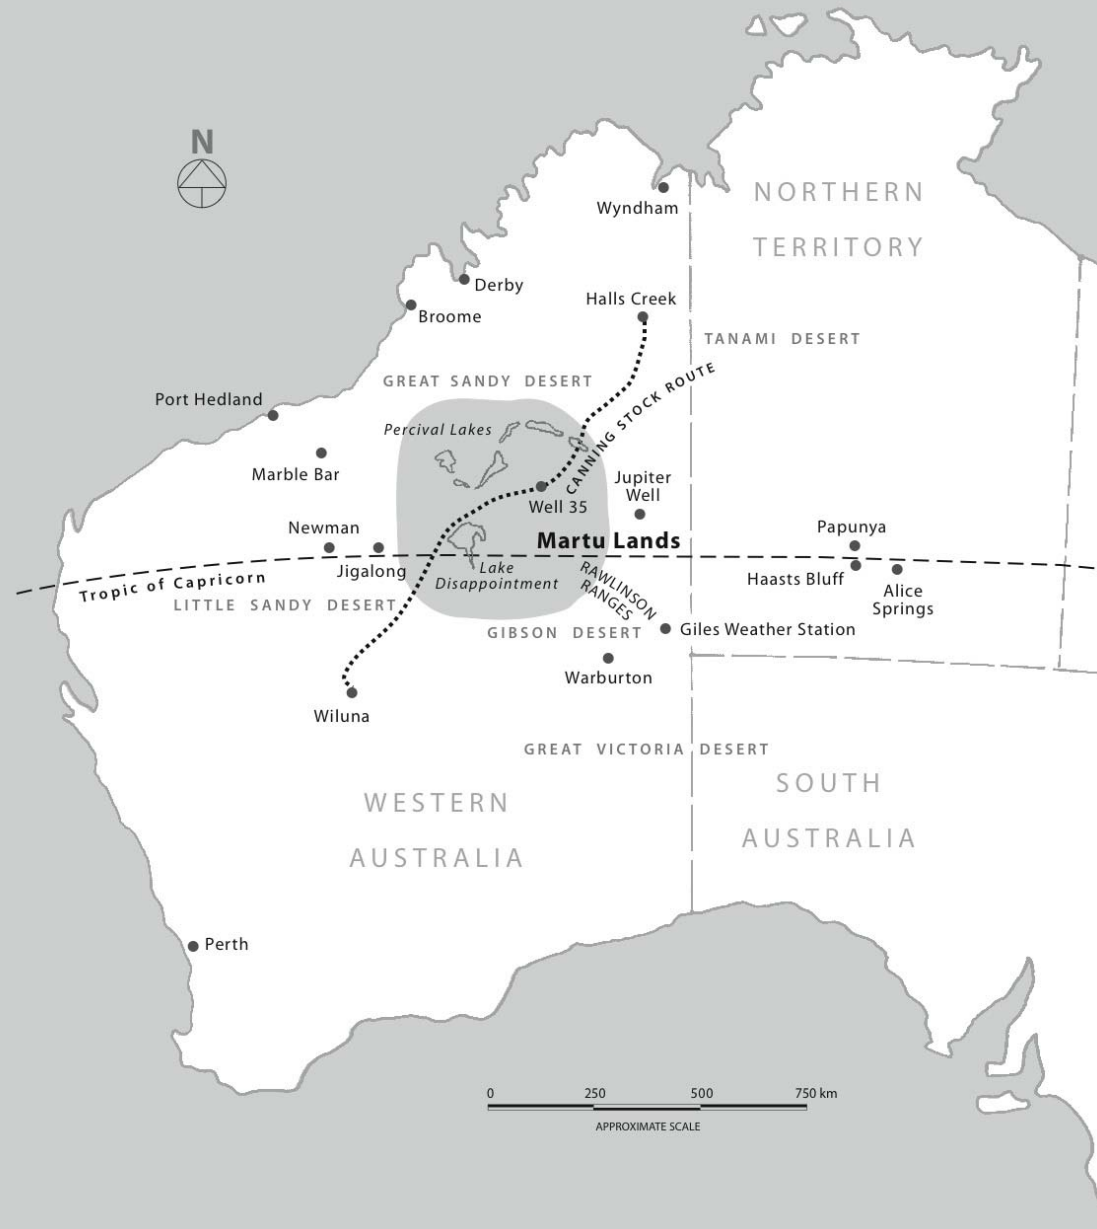

Learnings

- Micro
- Meta

Developmental Moments – Moments when multiple layers and levels of learning/activity/meaning coalesce -
