**Can micro-credentials offer a new way  
of upskilling the evaluation sector in a  
rapidly changing environment?**

**Wednesday 27<sup>th</sup> September 2023**

# Understanding micro-credentials

Micro-credentials are a certification of assessed learning or competency, with a minimum volume of learning of one hour and less than an AQF award qualification, that is additional, alternate, complementary to or a component part of an AQF award qualification

National Microcredentials Framework, Australian Government
